*These are minimum radii to be used as a guide for flexibility standards.
**Additional depth adds increased strength and stability.

Available in Five Finishes:
- Mill Finish
- Black Anodize
- Deco-Bronze
- Deco-Black
- Deco-Green

Special Connectors: Angles, Corners, Tees & Tapered Ends Specify Depth & Finish

Material:
- 6063-T6 Aluminum Alloy (Edging & Connectors)
- 6061-T6 Aluminum Alloy [Stakes]

Technical Specification:

Landscape bed edging shall be CURV-RITE 3000 SERIES: [THICKNESS] inch thick aluminum edging, [DEPTH] inches deep with a [FINISH] as manufactured by CURV-RITE, INC. Wayland, MI: 1-800-366-2878. Sixteen (16) foot sections shall be used with (1) subsurface stake per (38) inches of edging. Edging shall be aluminum alloy 6063-T6 with stakes being 6061-T6. Edging shall have a minimum of (2) inches of interlocking overlap between sections. Install per manufacturer’s specifications with top of edging 1/4” to 1/2” above compacted finish grade. Finish grade to be compacted on either side of edging to maintain stability.
Curv-Rite® aluminum edging was designed by landscape architects and landscape contractors to offer greater flexibility in design and installation over any other edging material.

Curv-Rite’s innovative design creates smooth curves with interlocking features for ease of installation.

The Curv-Rite design features include:

- Durable aluminum alloy.
- Secure telescoping connection.
- Vertically symmetrical cross-section.
- Flexible and resilient structure.
- Minimal frost heave.
- Structurally strong stakes.
- Versatile connectors—allow easy construction of corners, angles, and tees.

Optional connectors from Curv-Rite® Aluminum Edging encourage unlimited design possibilities; such as octagons and pentagons.
